- Topics are broken down into cohesive sequences of learning in the teachers' **Medium Term Plans** – these are available on request. These build upon the children's prior learning.
- As we have mixed-age classes at Brompton and Sawdon, all staff implement the **Fundamental of Teaching**– ensuring that **previous learning is consistently referenced and built upon**.
- **Bespoke Assessment materials** ensure that previous topics are **constantly revisited through retrieval / recapping activities**, allowing the children to know more and remember more.
- **Cohesion documents** are also provided for parents, outlining where learning about the topics is linked across the subjects.
