

Brompton and Sawdon Community Primary school:

A Global Outlook

At Brompton and Sawdon Community Primary school, we aim to help our children to develop a strong understanding of their roles as global citizens. We aim to raise awareness of multi-cultural and global issues across the whole school community, including an appreciation of the fact that what we do can make a difference to the lives of other people and environments around the world. We are committed to providing an international dimension across our curriculum and in our community. Our curriculum reflects this commitment to develop awareness and understanding of the cultures, geography and environment, character and concerns, languages, religions and economic circumstances of people elsewhere in the world and around our locality; to develop an awareness of our place in the world and recognise our interdependence with the environment and other peoples.

Being a global citizen is underpinned and informed by our school Pillars. Through these we want every pupil to take responsibility, be knowledgeable, truly care and make a difference on a local and global scale.

See the attached document to see the full overview of Global Links at Brompton and Sawdon Primary School.
