

Our Wild School sites!

Our children love learning outside! Each class tries to take learning into the outdoors as much as possible. We are so lucky to live in such an amazing village and even luckier that we are able to access so many amazing sites each week – for Wild School or to bring other subjects to life.

The children develop their Wild School skills and knowledge in shorter ‘potted skills’ sessions, before further utilizing these in our regular expeditions at Wydale Hall and beyond.

Here are some of the sites very close to the school that the children will access regularly for learning across the curriculum:

The Butts

Brompton Beck

The old fish pond

The School Gardens

The water meadows

Dovecote Woods

Millpond Woodland path

Back Lane

The Millpond

Fishpond Walk

Fishpond Fields

Other sites nearby:

Wykeham Lakes

Wykeham Forest

Forge Valley

The opportunities for learning are endless!
